CREATING TOMORROW

# AUAS SUMMER SCHOOL

## PRACTISING HUMAN RIGHTS IN URBAN AREAS

WORK ON HUMAN RIGHTS CHALLENGES FACED BY GROUPS LIVING IN SITUATIONS OF MARGINALIZATION.

- ▶ Extend your knowledge of urban issues, the ethics of human freedom, human rights advocacy strategies and groups in challenging human rights situations.
- ▶ Develop critical and creative thinking skills.
- ▶ Acquire skills to work with challenged groups from a human rights perspective,

### THIS COURSE

In this practice oriented, Amsterdam-based summer course with an international perspective, you will learn strategies and skills to work with groups that are in a challenging human rights situation. How? By using creative methods, a positive approach (capabilities approach), and by learning by doing in practice.

You will be informed by (theoretical) introductions to the central themes and different approaches. This will be combined with field experiences in Amsterdam.

***"I really have a positive view on this summer school experience and would definitely do it again."***

Natalia Harstveit - 2018 AUAS Summer School student from Norway

### THE AUAS SUMMER SCHOOL

Besides this academically challenging AUAS summer course, there will be some spare time as well. Some of this spare time will be filled with a social programme that is both fun and educational. You will get to know Amsterdam the way the 'Amsterdammers' do. Visiting museums, meeting new people, or riding a bike. Amsterdam has plenty to offer, so it will be difficult to choose!

### H.Y.W. i fgr'g V'YVigUFY

- Human Rights Law
- Ethics of Human Freedom (Capabilities Approach)
- Community-based Research
- Community Arts
- Digital Storytelling

The PHRIUA course is a collaboration between Amsterdam University of Applied Sciences and Oslo Metropolitan University.

The courses of the AUAS Summer School will run from 6 to 17 July 2020.
